

Mollacas Sale Completed

HIGHLIGHTS

- Sale of the non-core Mollacas project has completed, with A\$1.3 million cash received.
- Timely non-dilutive cash injection further strengthens Los Cerros' balance sheet, ahead of next drilling of the Quinchia Gold Project.

Los Cerros Limited (ASX: LCL) (the Company) is pleased to advise the sale of its non-core Mollacas Project in Chile has now completed, with A\$1.3 million cash proceeds (after settlement costs and exchange rate variations) received by the Company.

The Company's Managing Director, Jason Stirbinskis said:

"This sale has provided a timely and non-dilutive cash injection for us, supplementing the A\$2.1 million in new equity raised by our placement last week.

"We have compelling drill targets at our Quinchia Gold Project and, with new funding secured over the past week, we are well placed to get back into drilling. In Q2 we are planning to follow up what are arguably some of the strongest gold porphyry intercepts by ASX explorers in recent years given +300m width, near-surface gold mineralisation intercepts at both Tesorito and Chuscal prospects¹".

The Company remains focused on expanding its gold resource base within its advanced Quinchia Gold Project in the heart of the prolific mid-Cauca Gold-Copper Belt of Colombia, where the Company has an existing gold Resource of 877,000 ounces at the Miraflores deposit (DFS completed in 2017)², and large-scale gold targets at each of the Tesorito and Chuscal prospects which lie within 2kms of the proposed development site for the Miraflores deposit. The company also looks forward to returning to the expansive but earlier stage Andes Project, also within the Mid-Cauca, which has already revealed a considerable number of vein and porphyry style targets¹.

For the purpose of ASX Listing Rule 15.5, the Board has authorised for this announcement to be released.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the market announcement, and that all material assumptions and technical parameters underpinning the estimate continue to apply.

restrictions, including environmental regulation and liability and potential title disputes. Forward looking statements in this document are based on Los Cerros' beliefs, opinions and estimates of Los Cerros as of the dates the forward-looking statements are made, and no obligation is assumed to update forward looking statements if these beliefs, opinions and estimates should change or to reflect other future developments. Although management believes that the assumptions made by the Company and the expectations represented by such information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any anticipated future results, performance or achievements expressed or implied by such forward-looking information. Such factors include, among others, the actual market price of gold, the actual results of future exploration, changes in project parameters as plans continue to be evaluated, as well as those factors disclosed in the Company's publicly filed documents. Readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws. No representation, warranty or undertaking, express or implied, is given or made by the Company that the occurrence of the events expressed or implied in any forward-looking statements in this presentation will actually occur.

JORC STATEMENTS - COMPETENT PERSONS STATEMENTS

The technical information related to Los Cerros assets contained in this report that relates to Exploration Results (excluding those pertaining to Mineral Resources and Reserves) is based on information compiled by Mr Cesar Garcia, who is a Member of the Australasian Institute of Mining and Metallurgy and who is a Geologist employed by Los Cerros on a full-time basis. Mr Garcia has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration, and to the activity which he is undertaking, to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Garcia consents to the inclusion in the release of the matters based on the information he has compiled in the form and context in which it appears.

The Company is not aware of any new information or data that materially affects the information included in this release.

TABLE 2 - MIRAFLORES PROJECT RESOURCES AND RESERVES

The Miraflores Project Mineral Resource estimate has been estimated by Metal Mining Consultants in accordance with the JORC Code (2012 Edition) and first publicly reported on 14 March 2017. No material changes have occurred after the reporting of these resource estimates since their first reporting.

Miraflores Mineral Resource Estimate, as at 14 March 2017 (100% basis)

Resource Classification	Tonnes (000t)	Au (gpt)	Ag (gpt)	Contained Metal (Koz Au)	Contained Metal (Koz Ag)
Measured	2,958	2.98	2.49	283	237
Indicated	6,311	2.74	2.90	557	588
Measured & Indicated	9,269	2.82	2.77	840	826
Inferred	487	2.36	3.64	37	57

Notes:

- i) Reported at a 1.2 gpt gold cut-off.
- ii) Mineral Resource estimated by Metal Mining Consultants Inc.
- iii) First publicly released on 14 March 2017. No material change has occurred after that date that may affect the JORC Code (2012 Edition) Mineral Resource estimation.
- iv) These Mineral Resources are inclusive of the Mineral Reserves listed below.
- v) Rounding may result in minor discrepancies.

Miraflores Mineral Reserve Estimate, as at 27 November 2017 (100% basis)

The Miraflores Project Ore Reserve estimate has been estimated by Ausenco in accordance with the JORC Code (2012 Edition) and first publicly reported on 18 October 2017 and updated on 27 November 2017. No material changes have occurred after the reporting of these reserve estimates since their reporting in November 2017.

Reserve Classification	Tonnes (Mt)	Au (gpt)	Ag (gpt)	Contained Metal (Koz Au)	Contained Metal (Koz Ag)
Proved	1.70	2.75	2.20	150	120
Probable	2.62	3.64	3.13	307	264
Total	4.32	3.29	2.77	457	385

Notes:

- i) Rounding of numbers may result in minor computational errors, which are not deemed to be significant.
- ii) These Ore Reserves are included in the Mineral Resources listed in the Table above.
- iii) First publicly released on 27 November 2017. No material change has occurred after that date that may affect the JORC Code (2012 Edition) Ore Reserve estimation.
